

AMERICAN FORCES RACE DOWN PENINSULA

Imminence of Hun Defeat Spurs Congress

RECONVERSION LEGISLATION TO GET PRIORITY

Enactment Of Laws Before October New Goal On Capitol Hill

NEED FOR SPEED CITED

Plans For Adjournment Shelved As Result Of European Situation

WASHINGTON, July 31—Spurred by the swift progress of the war, congress prepared to reconvene tomorrow after a five-week recess with a new goal in view, the enactment of post war reconversion legislation before October.

If that could be accomplished, the house and senate would probably recess at the end of September until after the November election.

With the imminence of a German defeat brought nearer since congress recessed June 23, leaders shelved previous plans for another adjournment until after Labor Day.

Instead, congress will probably remain technically in session by means of three-day recesses while house and senate committees busy themselves with the task of completing consideration of post war measures now in their hands.

Meet Twice Weekly

Most congressmen were not expected to return immediately to Washington. Perfunctory meetings of the house and senate will be held twice weekly during August by a few members. It was considered unlikely that a quorum would be present in either the house or senate tomorrow for the initial session.

Pressing for the attention of the legislators were bills which would establish an office of demobilization to handle the reconversion of industry from war to peace, cushion the unemployment of millions of war workers temporarily thrown out of work and dispose of billions of dollars worth of war surplus materials and government-owned plants.

It seemed almost certain that there would be no more consideration of the bills.

ESTONIAN ARMY TO "FIGHT" BOTH RUSS AND HUNS

NEW YORK, July 31—A report from Stockholm said that the Estonian underground army would announce a formal declaration of war against both Russia and Germany today.

The report added that the formal declaration of war would be made in Stockholm by the so-called Estonian underground parliament.

Representatives of the parliament are reported to have said that they would fight to the death rather than become a part of the Soviet Union.

The report added that the underground movements of both Latvia and Lithuania are expected to take similar action.

"Mail Early"

SEPTEMBER 15 to October 15 are the dates set by postoffice authorities for the mailing of Christmas packages to servicemen and women overseas. This giant color reproduction of the official war department 1944 "Mail Early" poster also tells you to address correctly; wrap securely; limit weight to five pounds; size 15 in. long, 36 in. length and girth combined; prepay full postage; Christmas cards must be sealed in envelopes.

ROCKET BOMBS HARD TO FIGHT

Sikes Says Germans Will Continue Using Terror Weapon Until Peace

WASHINGTON, July 31—Rep. Sikes (D) Fla., house military committee member, maintained today the Nazi robot bomb attacks on England will "be effective against the British until the end of the European war."

Sikes, who has conducted a "one-man" study of Hitler's flying bomb tactics, also predicted that within a "mere matter of weeks" Germany will have developed robots capable of reaching England from three times the distance they are now covering.

Declaring that the rocket bombs will not, however, affect the outcome of the war, Sikes warned that the installations from which they are fired are difficult for Allied airmen to "knock out."

"These installations are small, well-built of thick concrete and widely scattered," said Sikes. "They present a very small target and a target which is hard to hit from the air."

"As the Allies push the Germans back on the western front, the Nazis will move their robot bomb equipment closer to Germany," Sikes explained. "And within a mere matter of weeks they will be able to reach England from three times the distance."

JAP LEADERS ARE "PURIFIED" AT ISE SHRINE

NEW YORK, July 31—Jap Premier Kuniaki Koiso, accompanied by Navy Minister Matsuoka Yonai and Justice Minister Hirotsugu Matsuzaka, announced themselves "purified" today after a pilgrimage to the Ise Shrine at Utsunomiya, near Nagoya.

Koiso reported in a broadcast to the Japanese people that he weighed 18 and half kan (about 150 pounds) and was "extremely vigorous in spirit" after his pilgrimage.

The newly "purified" premier called for Jap determination for complete victory.

He also told the Japs that he had taken up archery to inspire his fighting spirit, and that his favorite food was toasted rice balls seasoned with soy sauce.

The FCC monitored the broadcast which stressed economy, determination for victory, and ignored American air raids.

TIRE SHORTAGE MAY INCREASE VICTORY SPEED

Capital Considers Need Of Boosting Mile Coverage Of Trucks, Buses

SERIOUS CRISIS AHEAD

Rubber Supply For August, September Less Than Half National Need

WASHINGTON, July 31—Upward revision of the wartime speed limit to 45 miles an hour was being discussed today as a possible means of increasing utilization of trucks and buses during the crisis caused by the shortage of heavy duty tires.

Guy A. Richardson, assistant director of the Office of Defense Transportation, bluntly stated that the shortage may prove "calamitous." WPB has allocated between 57,000 and 73,000 heavy tires monthly for August and September to meet requirements estimated at 165,000 a month.

A meeting of heavy tire producers will be held in Washington next Thursday at the call of WPB Executive Vice President Charles E. Wilson to study methods of breaking the production bottlenecks which are said to be attributable to a deficit of 6,000 workers in tire manufacturing plants.

Appeal To Dewey

The American Trucking Association, meantime, in an advertisement, appealed to Rubber Director Bradley Dewey to "go ahead and finish the job." Dewey has scheduled his resignation for September 1, asserting that the nation's synthetic program has been completed and there is plenty of rubber available. Dewey has recognized, however, the crisis in tire production, but has said this problem was up to WPB and the War Manpower Commission.

Experts said an increase in the national speed limit would have little effect on passenger car drivers, since gasoline rationing confines these vehicles largely to city streets where speed limits are under the 35 mile an hour wartime maximum. Most highway traffic today consists of trucks and buses.

Some transportation officials believe that there would be little effect.

HAMILTON FISH ORDERS ACTION AGAINST AUTHOR

NEWBURGH, N. Y., July 31—Republican Rep. Hamilton Fish said today he has instructed his attorneys to bring a libel action against playwright Maxwell Anderson and other signers of an anti-Fish political advertisement published in Saturday's Nyack Journal-News.

Fish, running for re-election in the new 29th district in tomorrow's primary, was challenged to sue by Anderson, who served notice then that he would reprint the ad. Wendell Willkie then offered to defend Anderson if Fish sued.

Said Anderson: "If Fish actually sues us and goes through with the proceedings, this is wonderful news. He would never dare face a test in court."

G. I. JOE IGNORES OWN WARNINGS; NOW IN HOSPITAL

FORT SHERIDAN, Ill., July 31—Pvt. Edwin W. Schwein, 27, spent most of last week placing warning signs along the Fort Sheridan beach, but apparently he was not greatly impressed with the importance of his job.

Today he was being treated at the post hospital for ivy poisoning. The signs he placed read: "Beware, Poison Ivy!"

YANK TANK FORCES SMASH THROUGH NAZI LINES

AMERICAN INFANTRYMEN, using tanks as cover are shown here during an attack at Periers. Yank tank forces, smashing through German lines in Normandy, have captured thousands of Nazi fighters in one of two drives toward Periers and have pushed beyond St. Lo. (International Soundphoto)

CHINESE SPLIT MAY BE HEALED

State Department Sees Relation To Possibility Of Russ-Jap War

WASHINGTON, July 31—State department officials said today they saw evidence of a new move to unify China and to put an end to the hostilities between the central government at Chungking and the communist government in the northern provinces.

This move was directly related to the possibility of Russia coming into the war against Japan. For such an event, it was explained, the Chungking government wants warmer relations than now exist with its own communist section and also with the government in Moscow.

Today, relations between China and Russia are very cool. The Soviet embassy in Chungking is inactive. The same is true of the Chinese embassy in Moscow. In the coming four-power conference in Washington, the Russians and Chinese have declined to sit down together, and separate sessions have been arranged.

Officials pointed out that the reason for this coolness is not merely Russia's desire to maintain a correct position of neutrality toward Japan. There is also Russia's displeasure over the failure to bring the communist elements into the central government.

This displeasure was frankly expressed July 18 in a press attack from Moscow. An article in "War And The Working Classes" criticized the conflicts between Generalissimo Chiang Kai-Shek and the communist forces in the north, attacked the "reactionary policies" of the Chinese government and declared that disunity had brought "a plain weakening of their military efforts."

In the face of this attack, Chiang is reported to be making efforts to heal the split.

\$1,385,000 BRIDGE DESTROYED BY TORNADIC WIND

CHESTER, Ill., July 31—The collapse of the two center spans of the \$1,385,000 automobile and foot bridge across the Mississippi river between Chester and Claryville, Mo., was attributed today to winds of reportedly tornadic force and not lightning as first believed.

The bridge, six-tenths of a mile long and owned by the city of Chester, fell Saturday night. Two years after its construction, when a swiftly rising wind struck Chester.

No injuries were reported. The daily traffic across the bridge, estimated from toll figures at 400 passenger automobiles and 160 trucks, was routed today.

HERO CATCHES HOME CITY WITH BANNERS DOWN

CHICAGO, July 31—Lt. Alex Vraciu, the Navy's leading ace with 19 Jap planes to his credit, was back at his East Chicago, Ind., home today but, arriving two weeks before he was expected, he caught his home town with its banners down.

A mammoth homecoming celebration had been planned for him, but he avoided this, either by error or design, by stepping off a plane at Chicago's municipal airport with very few persons knowing in advance of his coming.

A few did, however, and Mayor Frank Miga of East Chicago along with some other city officials and the 25-year-old hero's parents were on hand to greet him.

The lieutenant made it a point to stop off on his way home at the residence of his uncle, John Tincu, Chicago manufacturer, who had promised him \$100 for every Jap plane shot down. Tincu paid off willingly.

LONDON EXPECTS EARLY TURKISH GERMAN BREAK

LONDON, July 31—A break in relations between Turkey and Germany as the first step toward Turkey's entrance into the war was expected in London today as German nationals were evacuated from Ankara.

The Nazi agency DNB reported that the Turkish government would announce its decision to a secret meeting of the Turkish house of deputies which is scheduled for tomorrow. Wednesday the deputies will hold an open session.

The German agency added that the decision of the Turkish government—to break relations with the Nazis—"is regarded by Britain and the Soviet Union as the first step toward Turkey's entering the war at a later date."

Turkish newspaper editors are reported to have been told to report to Ankara today presumably to hear that Turkey has officially severed relations with Germany.

A British "ultimatum" was said by the Germans to have brought matters to a head. DNB said the alleged ultimatum was supported by the American and Russian governments.

The Nazi Transocean Agency reported that German Ambassador Franz Von Papen had returned hurriedly from a vacation for a meeting with Turkish Premier Sukru Sarajoglu.

MARINES PROBING AIR CRASH FATAL TO SEVEN

SANTA BARBARA, Cal., July 31—A Marine corps board investigated today the collision of two planes over the ocean near Santa Barbara in which seven Marine airmen were killed and an eighth parachuted to safety.

Second Lt. John T. Ripley of Boston, Mass., parachuted into the ocean and was rescued by a coast guard patrol boat.

MUKDEN RAID A 'DREAM MISSION'

Superfort Crews Declare Assault One Of Most Successful In Asia

AT A SECRET U. S. SUPER-FORTRESS BASE IN WESTERN CHINA, July 31—American airmen who flew B-29 Superfortresses in a raid on Anshan, Manchukuo, Japan's second largest steel producing center, described their first daylight raid as a "dream mission" today.

Enthusiastic crewmen claimed that the strike against Anshan, accompanied by diversionary attacks on Tangku and Chiengshien, was one of the most satisfactory and successful Allied bombing attacks ever delivered in Asia.

The B-29 men said that their raid completely surprised the enemy with the first bombs loosed on the target bringing definite results. They described the heavy blow against the vital Mukden industrial area as "like shooting a sitting duck."

Bombardiers Lieut. Eugene O'Brien, Albany, N. Y., and Lieut. Robert Lantz of Lebanon, Ore., agreed that it was a bombardier's dream. Lantz said:

"I looked in the sight and the target was lying dead center; you couldn't miss."

Capt. James Lyons, of Stockton, Cal., reported that 160 miles from Anshan he could still see smoke rising 20,000 feet above the target.

The diversionary attacks against dock installations at Tangku and railroad marshalling yards at Chiengshien were described as "uniformly successful" as Superfortresses bombed targets in both areas.

The highly successful B-29 raids, described as having been achieved at "very slight" cost, emphasized the maneuverability of the giant ships, and their ability to hit targets where they are least expected.

This maneuverability was emphasized by the Tokyo radio report that the Sasebo navy base was alerted at the first news of the Manchukuo raid.

CROW GUZZLES BEER, LOOKS UP CAT FOR FIGHT

NEW YORK, July 31—Deacon, beer-guzzling crow at the Children's Zoo in New York Zoological Park, was a little under the weather today, recovering from a hangover and marks of battle received because he can imitate a dog so realistically.

The cause of Deacon's plight came to light when a 13-year-old boy living in the neighborhood of the park told his story. He found Deacon on a sidewalk, screaming "bowwow!" — and engaged in a fight with an irate, puzzled cat.

Zoo Night Watchman Fitzsimmons, who finally rescued the bird, said afterward in disgusted tones: "Deacon smelt all over of beer."

One Dies, 10 Injured In Car Mishaps

Series Of Accidents Over Week End Take Heavy Toll In District

One person was killed and 10 others injured in accidents in Circleville and vicinity over the weekend.

Robert Shaffer, 19, formerly of Route 2, Circleville, now of 524 West Town street, Columbus, was reported slightly improved Monday at Berger hospital where he is being treated for a fractured jaw and chest injuries suffered Saturday at 1:30 p. m. Patrolman George Green reported Shaffer's car skidded on East Mound street, crashed through a fence and hit a tree. The car, a 1934 Plymouth, was wrecked.

Shaffer was to be removed to University hospital to the dental department. He was attended by Dr. V. D. Kerns.

Eight persons were injured in an accident on Route 22, 4.2 miles west of Williamsport, about 11:30 p. m. Saturday, highway patrolmen at Chillicothe reported. Cars driven by Fred R. Singer, 19, of West Rushville, and Kermit Wolford, 35, of 512 East Mound street, Circleville, were badly damaged in a head-on collision, patrolmen said.

Injured were: Singer, bruises and abrasions and a sprained ankle; his companion, Dorothy Inty, 20, of Lancaster, lacerations and bruises on body and face; and passengers in Wolford's car, Bertha Starkey, 49, abrasions and lacerations on body and face; Doris Starkey, 29, bruises; Pauline Starkey, 14, lacerations; Marvin Starkey, 11, lacerations; Mary Betts, 29, shock and severe head lacerations; Roy Starkey, 23, knee injuries.

Patrolmen said Singer and Miss Inty were on their way to get married when the accident happened. Singer was cited to appear in Mayor Ben H. Gordon's court Tuesday on charges of reckless driving.

The injured were treated by Dr. C. D. Sheets and Dr. H. D. Gamble at Williamsport.

Bruce Ford, 17, of Columbus, employed at Lockbourne Army air base, was injured Monday at 10:04 a. m. when his car went off a bridge.

(Continued on Page Two)

CHEST WOUNDS SAID TO HAVE KILLED ROMMEL

WITH U. S. FORCES IN NORMANDY, July 31—Field Marshal Erwin Rommel, one of Adolf Hitler's favorite generals and commander of anti-invasion forces, was said today to have died of chest wounds at a hospital at Bernays, France.

The persistent reports of Rommel's death came this time from a German captain, and one well-informed Allied military spokesman said that since all stories seem to coincide as to details they "make sense."

According to the various reports Rommel was wounded by several shots through the lungs on July 17 while riding on the highway near Lisieux.

An Allied strafing plane was said to have killed Rommel's driver and knocked his automobile into a ditch. Rommel reportedly lay unconscious for six hours.

An earlier report that the "Desert Fox" had conferred with his generals at Percy the day before the American breakthrough at St. Lo was proved false.

7,000 WORKERS IDLE AT CHEVROLET PLANTS

DETROIT, July 31—A total of 7,000 employees of five Chevrolet gear and axle plants were idle today as additional workers joined the 3,600 who left their jobs last Tuesday.

Nestor B. Dessy, president of UAW-CIO local 235, said the "strike is the result of an accumulation of grievances over production standards on slot jobs in plant No. 2."

YANKS SMASH HUN ARMIES ON WESTERN FRONT

Tanks Shoot Ahead 12 Miles To Enter Road Junction At Avranches

RUSS OPEN NEW DRIVES

Reds Nearing Suwalki In East Prussia, 30 Miles From Main Border

LONDON, July 31—More than 1,200 four-motored Fortresses and Liberators today attacked military targets in the Munich area as well as other points in central Germany and airfields in France.

The Nazi agency DNB reported Augsburg heavily hit as well as Munich.

By International News Service

American forces raced down the Cherbourg peninsula today in a smashing attack on the western front of the Nazi-held continent as Russian armies in the east swept into East Prussia.

The American gain was greatest on the right where U. S. tanks shot ahead 12 miles to enter the vital road junction of Avranches at the base of the Cherbourg peninsula. If U. S. troops can push beyond Avranches they will be clear of the peninsula where Allied forces have been locked since the invasion began. Avranches is a hinge of the Cherbourg peninsula and a pivot for the other great French peninsula on the tip of which is the great sea port of Brest.

Another Yank armored spearhead drove south from captured Brehal to within three miles of the coastal road center of Granville. The American advances toward Granville and Avranches threaten to roll back the whole German west flank defense line in Normandy.

British Advance

To the left of the American drives the British in the second day of their new offensive smashed ahead for gains ranging up to six miles. Nearly a dozen towns and villages were captured by the Tommies in their smash southward from Caumont.

But the American entry into Avranches represented the most significant gains on the French front today, opening, as it does, the plains beyond the Cherbourg peninsula for more extensive offensive maneuvers.

Sagging German defenses in the Baltic states and Poland were hit by new Russian drives. One drive struck into East Prussia to within 18 miles of Suwalki in the area annexed to the German province after Nazi occupation of Poland in 1939.

Another big Russian offensive was reported by the Germans to have struck from Narva, farther north in Estonia. The Nazis in announcing this Red drive said it was backed by 11 infantry divisions and seven tank brigades.

Near Main Border

The push against East Prussia was only 30 miles from the main borders of that sprawling group of Prussian militarism, and about 100 miles from Koenigsburg, capital of the state. Gen. Ivan Chernikov was reported to be in command.

JAP DEFEATS BRING CUT IN SUB BUILDING

WASHINGTON, July 31—The Navy announced today a reduction in its submarine building program, but pleaded for increased production in eight categories of ships and munitions which are running far behind scheduled war needs.

High on the list of much-needed production are rockets of all types, to be fired from both air-planes and ships.

The reduction in the submarine program, the Navy said, has been made possible by "past and prospective" advances in the Pacific, which has smashed Japanese shipping and has sharply reduced "future hunting grounds" for the undersea craft.

RECONVERSION LEGISLATION TO GET PRIORITY

Enactment Of Laws Before October New Goal On Capitol Hill

(Continued from Page One)
ation of such legislation this week and perhaps not until late August. Chairman Reynolds (D) N. C., of the senate military affairs committee, which is entrusted with handling post war reconversion measures, decided against calling his group together tomorrow when a canvass of members revealed no quorum. A meeting may be held Friday or early next week.

Meanwhile, Sen. Arthur Vandenberg (R) Mich., set the stage for a possible minority rebellion when he warned that there must be no "loitering" by congress over the enactment of any pertinent post war legislation.

Vandenberg, who returned to Washington Saturday, said he expected action by the Republican steering committee at its meeting Tuesday to keep congress on the job.

In the house, Speaker Rayburn urged members of committees on post war planning and legislation to return immediately. House legislative bills include surplus property measures sponsored by Rep. Colmer (D) Miss., and Monasco (D) Ala., and a more comprehensive measure backed by Rep. Celler (D) N. Y., jointly with Sen. Kilgore (D) W. Va., in the upper house. A bill similar to the Kilgore measure is also sponsored by Senators George (D) Ga., and Murray (D) Mont.

Kilgore and Celler issued a joint statement today warning that "congress must enact comprehensive reconversion legislation now or gamble with economic disorganization."

ROCKET BOMBS HARD TO FIGHT

(Continued from Page One)
times the distance they are now covering."

At the same time, the Florida congressman predicted the Nazi regime will fall and the European war will end by "cold weather."

"With a break through on both the eastern and western front," Sikes continued, "Germany will crack rapidly and within the course of a few days the war will be over."

Sikes said it was generally agreed that the present maximum range of the Nazi "terror" bombs is about 150 miles.

He said the United States has "developed rocket bombs experimentally" but has centered its strategy on "anti-robot bomb" weapons and long range, hard-hitting bomber planes which prove more effective in knocking out military installations.

The robot bombs, he added, are "terror" weapons designed to break morale of the British civilian population, and are relatively useless against military objectives at long distances.

Sikes envisioned the next war as one which will be fought entirely with machines—pilotless planes and bombs radio controlled.

"The possibilities are too horrible to contemplate and they are one reason we should set up a permanent peace organization in the postwar era," he concluded.

Not established—
THE JEEP "COOKS" NOW
TOLEDO, O. — The G. I. whose favorite comment on the "Jeep" is—"It can do everything but cook"—will be interested to know that the versatile scout car now has its own "stove". However, although the soldiers might consider it a step in the right direction, the gasoline stove has not been installed for them to practice their culinary arts; it's to enable the Jeep engine to start immediately at temperatures as low as 60 degrees below zero.

Discovering Many New Things in Wood, Scientists Probe Sawdust for Secrets

By Central Press
MADISON, Wis. — Scientists at the United States Forest Products laboratory, Madison, Wis., know how to tie wood in a knot.

They know how to make sugar and ethyl (grain) alcohol from wood. They have developed a paper that can take the place of light metals, and have improved wood so that it is as strong as some metals.

And now they wonder, as if they were just beginning to examine a new babe of science: what all does wood have to offer mankind?

They will find out. More has been learned about wood in the 34 years since the laboratory was organized in 1910, the first institution of its kind in the world, than has been known in all the centuries trees have been serving mankind so faithfully.

There are still many secrets in the wood that everyone knows so well but so little. Secrets, perhaps, in sawdust, for it is in waste wood, the two-thirds of the tree left after lumber is produced, that these scientists are now digging so vigorously for knowledge.

Probing More Secrets
There may be secrets still in the forests, where science and industry have combined their efforts to keep our trees growing for future harvests and uses.

At the beginning, the laboratory, a unit of the forest service, United States department of agriculture, was given what may have seemed a simple assignment: to probe into the properties of wood for better utilization.

What has resulted is a broad research program that includes all phases of wood properties and uses, studies of growth conditions affecting the quality of timber, methods of putting wood fibers to better use in the production of papers, finding glues to make plywoods and laminated woods do a better job, developing plastics and improving woods through impregnation, compression and stabilization.

Right now the main objective of the laboratory is to help win the war.

The five-story building housing the laboratory, which with equipment and supplementary facilities represents an investment of \$1,500,000, was built in 1932.

In every nook and corner of that building, and auxiliary buildings, all on grounds deeded by the University of Wisconsin, as well as another large building in the center of Madison, are home front soldiers particularly adept at waging war with wood.

Last year nearly 4,000 representatives of industry and government went to the laboratory for answers to difficult technical questions.

One of War's Problems
Consider the gigantic problem of crating, boxing and packaging in connection with the successful promotion of a war whose fronts are thousands of miles away. The more than 100 persons at work at the Madison laboratory designing and testing boxes and crates to carry war materials abroad, have saved both money and shipping space for Uncle Sam.

During the first 15 months of packing research at the laboratory, existing crating specifications were revised so that shipping space the equivalent of a half million

tons, worth at least \$50,000,000, was saved. This is equal to one trip each for 50 10,000-ton freighters.

How worth while these savings are may be judged by the fact that this one department has saved the country more money than it has cost the United States government to build and operate the Forest Products laboratory since its inception.

Much of the work at the laboratory has been subject to rigid censorship. Nevertheless, important developments that can be revealed give testimony to the persevering efforts of the laboratory, and at the same time offer promise that other advances in the science of wood may be expected.

Laminated Keels
One of these developments that may be mentioned is the solution of the problem of laminating small timbers into a ship keel. Ship keels have always been constructed of single timbers, which has meant searching the forests for trees suitable for this purpose. Or it has meant the bolting and nailing of separate timbers together, and in some cases the use of glues with bolts and nails. At the request of the Navy, laboratory technicians, in co-operation with other government agencies and private industry, developed a laminated keel that could be used in boats up to 65 feet in length.

While this was going on, other laboratory specialists were at work with representatives of the timber industry showing how wood could relieve a desperate shortage in ethyl (grain) alcohol, so vital now in the manufacture of synthetic rubber and other war purposes.

Using a pilot plant at Marquette, Mich., the scientists demonstrated that through the process of wood hydrolysis a ton of sawdust could produce between 50 and 60 gallons of industrial alcohol, in about half the time required by the Germans through a similar process. In this process, sawdust or other wood waste is turned into wood sugar,

which is then fermented into alcohol.

The results of this experiment indicated how vast amounts of wood waste in this country not only could be put to practical use, but could be used to meet a shortage in alcohol requirements as well as to relieve other sources of alcohol for other purposes.

When the United States Forest Service surveyed the possibilities of wood waste, it was discovered that by using the immediately available mill waste—sawdust, mill slabs, etc.; not slash and waste in the forests—industrial alcohol production could be boosted by 150,000,000 gallons annually.

Meanwhile, the laboratory was hard at work on other products in the science of wood. Two of these projects were concerned with paper and pulp—one a laminated paper, now used in the aircraft industry; the other a fiber board used in shipping war materials.

Soon after Pearl Harbor the fiber container industry developed a weather-proof fiber board that has been used extensively for overseas shipment.

Containers made of this material, called V-board, carrying foodstuffs and other materials for landing troops can be tossed overboard and allowed to be washed ashore by the surf at points where docking facilities do not exist. Recently the laboratory developed a weather-proof board that possesses even greater wet-strength than the best of the commercial V-boards.

Unrecognizable as Paper
The secret of high-strength laminated paper cannot be made known generally. It is a process of impregnating sheets of paper which are then compressed into a solid under heat. What results is an extremely strong product, which gives no suspicion that it is paper, and the fibers normally evident in paper are not visible.

As a substitute for aluminum, it has found use in molded aircraft parts, such as circular gun turret flooring, gun shield and gunner's

seat. A number of companies are now manufacturing products of laminated paper, which the laboratory calls papreg.

All over the laboratory are projects related to the aircraft industry but it is in glued products research that considerable imagination has been applied to the peculiar problems of aircraft construction.

Plywood has been a mainstay in the manufacture of certain types of aircraft. The famous British Mosquito bomber, for example, employs in the fuselage plywood bonded on two sides to a lightweight balsawood core, sandwich fashion.

A grid core has also been bonded to plywood in the same way, as have papreg and metals to light woods.

An interesting combination uses pure cellulose acetate as the "meat" of the sandwich, and papreg as the "bread." Only this one's thick white filler gives it the appearance of an ice cream sandwich—and looks good enough to eat. These particular sandwiches are going to war.

Challenge to Imagination
Where such products might land in the post-war world is a challenge to the imagination, and to the ingenuity of science and construction engineers.

Such an improved wood is made through a process of impregnating layers of wood with synthetic resins and putting them under pressures and heat. This wood is called compreg. What results is a heavy, extremely hard wood that is moisture-resistant, and resistant as well to checking, shrinking and warping.

Another use for waste forest materials is in the field of plastics. A great many plastics, particularly the darker ones, have some wood in them, either wood flour or cellulose, as a base. Laboratory scientists have developed a method of producing a plastic directly from wood.

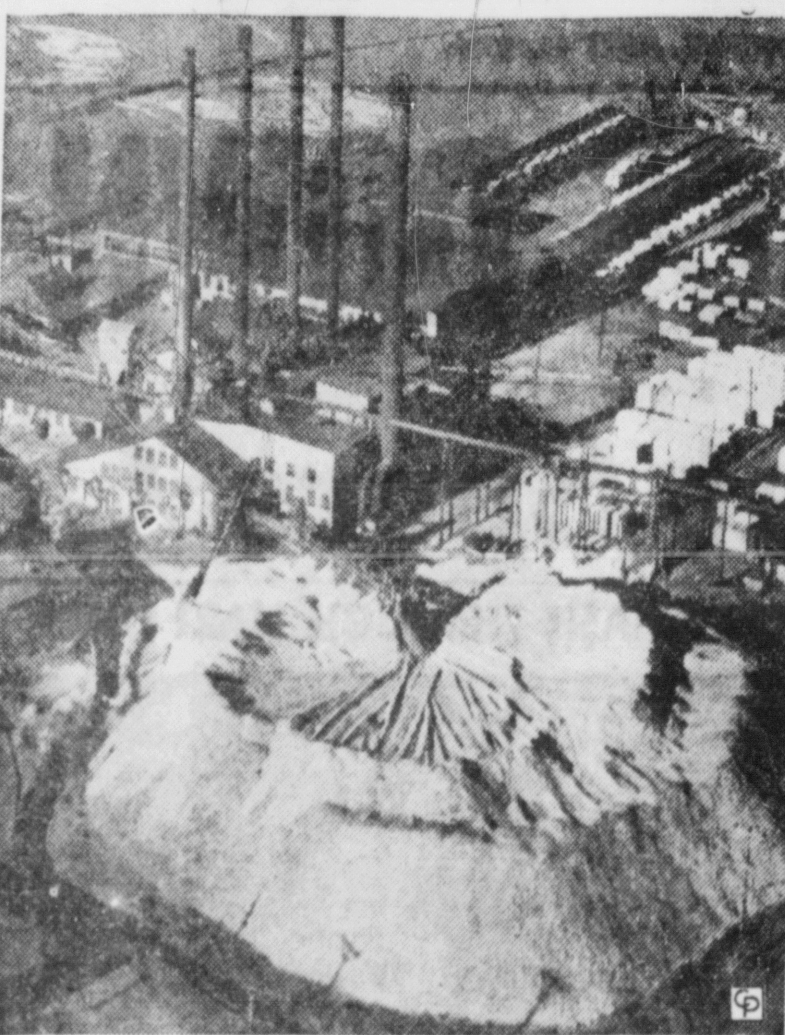

Part of the plasticizer in hydrolyzed wood plastic is the lignin in the wood itself. Lignin has plastic properties but it cannot be used for a plastic alone.

Lignin in Its Infancy
But as far as science is concerned, lignin is still a mere babe in arms. The men working under Laboratory Director Carlisle P. Winslow are just beginning to get acquainted with it. But they are working hard to find a major practical use for it, as are countless others, for when that answer is found it will mean a greater utilization of waste wood.

Nearly one-third of wood is lignin, the balance cellulose. In the manufacture of paper and pulp, much of the lignin is extracted and thrown away.

Such possibilities as the utilization of lignin, and other developments making use of waste forest materials lead to an interesting prospect that is not the paradox it appears: that we might be able to more than double our annual consumption of wood products without expanding production.

While trees continue to grow to care for our conventional needs, lumber cutting leaves about two-thirds of the trees as slash in the forests and as waste at the mills. It takes no imagination to realize how forest economy can be affected by a greater utilization of the cellulose and lignin in boughs, branches, tree tops and mill waste.

FUEL STORAGE PILE—Here's 192,000 cubic yards of wood waste.

tons, worth at least \$50,000,000, was saved. This is equal to one trip each for 50 10,000-ton freighters.

How worth while these savings are may be judged by the fact that this one department has saved the country more money than it has cost the United States government to build and operate the Forest Products laboratory since its inception.

Much of the work at the laboratory has been subject to rigid censorship. Nevertheless, important developments that can be revealed give testimony to the persevering efforts of the laboratory, and at the same time offer promise that other advances in the science of wood may be expected.

Laminated Keels
One of these developments that may be mentioned is the solution of the problem of laminating small timbers into a ship keel. Ship keels have always been constructed of single timbers, which has meant searching the forests for trees suitable for this purpose. Or it has meant the bolting and nailing of separate timbers together, and in some cases the use of glues with bolts and nails. At the request of the Navy, laboratory technicians, in co-operation with other government agencies and private industry, developed a laminated keel that could be used in boats up to 65 feet in length.

While this was going on, other laboratory specialists were at work with representatives of the timber industry showing how wood could relieve a desperate shortage in ethyl (grain) alcohol, so vital now in the manufacture of synthetic rubber and other war purposes.

Using a pilot plant at Marquette, Mich., the scientists demonstrated that through the process of wood hydrolysis a ton of sawdust could produce between 50 and 60 gallons of industrial alcohol, in about half the time required by the Germans through a similar process. In this process, sawdust or other wood waste is turned into wood sugar,

which is then fermented into alcohol.

The results of this experiment indicated how vast amounts of wood waste in this country not only could be put to practical use, but could be used to meet a shortage in alcohol requirements as well as to relieve other sources of alcohol for other purposes.

When the United States Forest Service surveyed the possibilities of wood waste, it was discovered that by using the immediately available mill waste—sawdust, mill slabs, etc.; not slash and waste in the forests—industrial alcohol production could be boosted by 150,000,000 gallons annually.

Meanwhile, the laboratory was hard at work on other products in the science of wood. Two of these projects were concerned with paper and pulp—one a laminated paper, now used in the aircraft industry; the other a fiber board used in shipping war materials.

Soon after Pearl Harbor the fiber container industry developed a weather-proof fiber board that has been used extensively for overseas shipment.

Containers made of this material, called V-board, carrying foodstuffs and other materials for landing troops can be tossed overboard and allowed to be washed ashore by the surf at points where docking facilities do not exist. Recently the laboratory developed a weather-proof board that possesses even greater wet-strength than the best of the commercial V-boards.

Unrecognizable as Paper
The secret of high-strength laminated paper cannot be made known generally. It is a process of impregnating sheets of paper which are then compressed into a solid under heat. What results is an extremely strong product, which gives no suspicion that it is paper, and the fibers normally evident in paper are not visible.

As a substitute for aluminum, it has found use in molded aircraft parts, such as circular gun turret flooring, gun shield and gunner's

seat. A number of companies are now manufacturing products of laminated paper, which the laboratory calls papreg.

All over the laboratory are projects related to the aircraft industry but it is in glued products research that considerable imagination has been applied to the peculiar problems of aircraft construction.

Plywood has been a mainstay in the manufacture of certain types of aircraft. The famous British Mosquito bomber, for example, employs in the fuselage plywood bonded on two sides to a lightweight balsawood core, sandwich fashion.

A grid core has also been bonded to plywood in the same way, as have papreg and metals to light woods.

An interesting combination uses pure cellulose acetate as the "meat" of the sandwich, and papreg as the "bread." Only this one's thick white filler gives it the appearance of an ice cream sandwich—and looks good enough to eat. These particular sandwiches are going to war.

Challenge to Imagination
Where such products might land in the post-war world is a challenge to the imagination, and to the ingenuity of science and construction engineers.

Such an improved wood is made through a process of impregnating layers of wood with synthetic resins and putting them under pressures and heat. This wood is called compreg. What results is a heavy, extremely hard wood that is moisture-resistant, and resistant as well to checking, shrinking and warping.

Another use for waste forest materials is in the field of plastics. A great many plastics, particularly the darker ones, have some wood in them, either wood flour or cellulose, as a base. Laboratory scientists have developed a method of producing a plastic directly from wood.

Part of the plasticizer in hydrolyzed wood plastic is the lignin in the wood itself. Lignin has plastic properties but it cannot be used for a plastic alone.

Lignin in Its Infancy
But as far as science is concerned, lignin is still a mere babe in arms. The men working under Laboratory Director Carlisle P. Winslow are just beginning to get acquainted with it. But they are working hard to find a major practical use for it, as are countless others, for when that answer is found it will mean a greater utilization of waste wood.

Nearly one-third of wood is lignin, the balance cellulose. In the manufacture of paper and pulp, much of the lignin is extracted and thrown away.

Such possibilities as the utilization of lignin, and other developments making use of waste forest materials lead to an interesting prospect that is not the paradox it appears: that we might be able to more than double our annual consumption of wood products without expanding production.

While trees continue to grow to care for our conventional needs, lumber cutting leaves about two-thirds of the trees as slash in the forests and as waste at the mills. It takes no imagination to realize how forest economy can be affected by a greater utilization of the cellulose and lignin in boughs, branches, tree tops and mill waste.

Such possibilities as the utilization of lignin, and other developments making use of waste forest materials lead to an interesting prospect that is not the paradox it appears: that we might be able to more than double our annual consumption of wood products without expanding production.

One Dies, 10 Injured In Car Mishaps

(Continued from Page One)

Route 23 near the Walnut Creek bridge. State patrolmen from Columbus said the boy went to sleep. The car, belonging to his mother, Mrs. Mary R. Ford, Columbus, was damaged extensively.

Ford was brought to Berger hospital by Charles Chapman. He suffered head and chest injuries.

No one was hurt but considerable property damage resulted in an accident at Routes 23 and 316, State Patrolman Ramsey and Deputy Sheriff Vern Pontious reported. Cars involved were driven by Eugene Wallace, 26, of Columbus, and George DeLong, Ashville. Riding with Wallace were his father, R. B. Wallace, 54, Irvin Johnson, 27, and William Brewer, 26.

Delong was cited to appear in the court of Justice of the Peace Elmer Malone at Ashville.

Funeral will be held at 2 p. m. Tuesday in the Snyder funeral home, Mt. Sterling, for Glen L. Wright, 40, of Route 1, Mt. Sterling, who was killed instantly when struck by an automobile on Route 40 near South Vienna Saturday night.

Austin Richards, Clark county coroner, said Wright had come out of a tavern and was crossing Route 40 when he was struck by an auto driven by William Gibson, Columbus, a representative of the U.A.W.-C.I.O. Wright died instantly of a fractured skull, the coroner reported.

Harl Wright, his father, is the only survivor.

TIRE SHORTAGE MAY INCREASE VICTORY SPEED

Capital Considers Need Of Boosting Mile Coverage Of Trucks, Buses

(Continued from Page One)

if any, greater usage of rubber at 45 miles an hour. Tests are being conducted to settle the issue. Advocates of the higher speed believe it would step up deliveries and enable fewer vehicles to make more trips and thus carry the load during the crisis ahead.

Although paradoxical on the surface, highway experts claim the proposal makes sense. They say it would be particularly beneficial in the case of buses, many of which reportedly exceed the 35 mile limit, but "stall" at various stopping points in order to arrive at their destination on a 35 mile an hour schedule.

Hundreds of trucks already have been forced off the road throughout the nation because of the heavy tire shortage and the August supply will be rationed under a rigid priority system.

Richardson said that possibly no more than fire fighting, sanitation, mail and similar municipal requirements and some city, suburban and inter-city bus lines can be taken care of next month.

The ODT is reexamining all conservation measures and seeking new ones for use during the crisis. ODT Director J. Monroe Johnson urged all operators of rubber-tired vehicles to continue and increase, wherever possible, the conservation and service curtailment measures, which in 1943 provided a saving of more than 824 million vehicle miles.

DOCUMENT ACCEPTED
PUEBLO, Colo. — When Pvt. Richard Lovell Willford asked for the permission of County Judge Hubert Glover for a correction on his birth certificate, Judge Glover requested proof that the correction should be made. Pvt. Willford handed over proof—a document signed by Judge Glover himself 14 years ago, when the Pueblo jurist was acting as superintendent of the junior department of the First Methodist Church Sunday School.

CHINESE SPLIT MAY BE HEALED
(Continued from Page One)

moves for a rapprochement. This will be a difficult task. Chiang himself is said to be strongly anti-communist, and inclined to blame all China's ills, including inflation, on the communists.

Moreover, as recently as 1941, Chiang reportedly sought to break up the communist-led Chinese Fourth Army by a military campaign against them.

But Chiang is described as being enough of a realist to see that a Russian attack on Japan—which appears inevitable when the European war is over—would give new strength to the communist faction in China, and possibly result in a new Soviet-sponsored government in Northern China which would attempt to dominate the entire country.

YANKEES SMASH HUN ARMIES ON WESTERN FRONT

Tanks Shoot Ahead 12 Miles To Enter Road Junction At Avranches

(Continued from Page One)

yakovsky, 37-year-old tank expert, lead the third White Russian army in this drive.

Below Warsaw, Marshal Konstantin Rokossovsky's First White Russian army was said to have thrown a flanking movement to the south of the Polish capital. The Germans claimed the Soviets had thrown a bridgehead across the Vistula river below Warsaw and hinted that the Russians may try to assault the city from the south as well as from the east in the frontal attack.

The Russian drive to trap the German 16th and 18th armies, guarding the Baltic states, appeared imminent with the escape gap narrowed to less than 25 miles.

A comparative lull was reported on the Italian front with the battle for Florence imminent. British troops of the Eighth Army made small "but important" gains, said headquarters, with the Allies tightening the steel ring about the great Tuscany art and cultural center.

Indian troops continued their advance toward the Arno river and cleared the area between Pisa and Elsa, south of the Arno river, except for scattered Nazi resistance. Action on the Adriatic sector and before Pisa was restricted to artillery duels and patrol skirmishes.

American invasion forces on Guam have broken the back of Japanese resistance there. In a lightning sprint across the island Jap defenses have been split in half, said Admiral Chester W. Nimitz at Pearl Harbor, and enemy resistance is now disorganized and disintegrated.

On Tinian, Yank forces have control of the whole island except for a five-mile square pocket in the southern tip where remnants of the island's garrison are trapped. Tinian town, where live two-thirds of the island's population or about 10,000 people, also is now in American hands.

NEWS OF OUR MEN and WOMEN IN UNIFORM

Richard Penn, who is in government work at Knoxville, Tenn., will leave Sunday after spending his vacation with his brother, Private First Class John Penn, who is home on leave with his parents, Mr. and Mrs. Lyman Penn, of Pickaway township. This is the first time the brothers have been together for two years. Pre. Penn, who has been home on furlough after spending two and one-half years in Africa, will leave Wednesday for Camp Butler, North Carolina, for reassignment.

Friends are asked to hold birthday cards for Carl Purcell until his new address is received. He will have a birthday anniversary August 9.

Miami Beach, Fla.—Staff Sergeant Paul J. Willis, Mt. Sterling Route 1, returned from service outside the continental United

After Arrest

BLONDE Frances Farmer, 30, former Hollywood star, is shown after eating breakfast at Antioch, Cal., following her arrest on charges of vagrancy. After pleading guilty, the ex-actress was given a \$10 suspended fine. She had recently been released from a hospital as cured of a nervous collapse.

COUNTY GROUP ACCEPTED FOR FIGHTER DUTY

Pickaway county men who were sent to Columbus last week by the Selective Service board for induction into the armed services were taken by the Marines, Navy and Army. One registrant was held over for further physical examination.

Accepted by the Marines were: George F. Sawyer, Circleville; Roy R. Dollison, Circleville; Ralph G. Baker, Circleville; Paul E. Hoover, Circleville.

Navy—James W. Davis, Stoutsville; James B. Kennedy, Orient; Walter E. Ross, Columbus; Harold O. Johnson, Orient; Frank Livingston Hinkle, Ashville.

Army—Charles R. Whaley, Circleville; Carl E. Jenkins, Circleville; Paul L. Weaver, Ashville; Gerald A. Winfough, Circleville; Clayton D. Gentzel, Circleville; Leonard E. Darrow, Ashville; Thomas M. Dick, Mt. Sterling; Merrill O. Smith, West Jefferson; Leonard O. Slager, New Holland; Roy H. Pearce, New Holland; Ralph D. Wolfe, Kingston; Glen A. Barr, Ashville; Isaac N. McFarland, Jr., Circleville; Loren A. Fogler, Laurelville; Clarence Woods, Kingston; George D. Davy, Circleville; Robert D. Porter, Circleville; Donald E. Quince, Circleville.

WIFE CHARGES NEGLECT
Charging gross neglect and extreme cruelty Fannie M. Haley Monday filed suit in common pleas court for divorce from George J. Haley. The petition states they were married January 20, 1940, and have no children. The plaintiff asks temporary and permanent alimony and division of property.

States, now is being processed through the Army Air Forces Redistribution Station No. 2 in Miami Beach, where his next assignment will be determined.

This is one of the Redistribution Stations within the AAF Personnel Distribution Command. At an AAF Redistribution Station, AAF returnees from theatres of operation are examined by specially selected medical and classification officers whose joint findings are used in recommending new assignments. Theme of the AAF Redistribution program is designation of each man to duty for which he is best fitted. Returnees live at a Redistribution Station under conditions that encourage natural response to processing; the greater part of their two-week stay being devoted to rest and recreation.

AAF personnel, enlisted men and officers alike, are assigned to a Redistribution Station upon their return to the United States, but do not report to the station until completing a furlough or leave of three weeks.

Sergeant Willis, 24, entered the service December 31, 1941, and was sent overseas January 27, 1942. He served as a chief clerk for 30 months in the Southwest Pacific.

Sergeant Willis is a son of Guy H. Willis of Mt. Sterling, and an alumnus of Monroe high school. He was awarded a presidential unit citation.

Lieutenant and Mrs. Phillip Moore, who have been spending a part of his 15-day furlough with his mother, Mrs. Howard B. Moore, South Court street, have gone to Port Clinton to visit Mrs. Moore's mother, Mrs. Harry Karshner. They will return here, Wednesday, for a brief visit before leaving for North Camp Hood, Texas, where he is first lieutenant in field artillery.

ASHVILLE

S/Sgt. George Forquer of the U. S. Marines is visiting with his mother, Mrs. Robert Welsh of Ashville.

Cadet Elmer Mallory, a member of the U. S. Air Corps, is at home on furlough.

Mrs. O. W. Smith was removed to Grant hospital for treatment Saturday. Mrs. Smith has been in ill health for several months.

The Ashville baseball team defeated a team representing the Kroger Packing Co. Sunday at Ashville by a score of 22-9. The winning batter was Messick and Luckett.

Miss Lillian Sixsmith is visiting with relatives in Dayton.

Mr. and Mrs. Edwin Irwin visited with relatives in Leesburg Monday. Jim Irwin, who had been in Leesburg the past week, returned home.

Mrs. Anna Rush spent Monday with Mrs. Sarah Richardson at Washington C. H. at Ross-Hocking state park last week.

Faye, Joyce and David Dowler, Bill Courtright, Billy Speakman, and Don Hoover expect to attend the 4-H camp at Ross-Hocking this week.

The local Boy Scouts returned from Camp Lazarus Sunday. Billy and Jerry Trego, who have been employed by Dan Boone all Summer, report that they were lodged in the Dan Boone cabins while in camp.

ICE-CREAM "BENDER"

ATLANTIC CITY, N. J.—Capt. Daniel Riordan, 21-year-old "För-tress" pilot of Washington, D. C., has been on an ice-cream "bender" for the past 30 days. To date, he has absorbed 103 sundaes, 98 sodas and 54 banana splits. All were strawberry or vanilla ice-cream—the captain doesn't go for chocolate.

STATE OKEH NO LONGER NEEDED BY DRAFT BOARD

County Unit Now In Full Charge Of Induction In All Groups

Pickaway county's draft board is again today in full charge of the induction of men in the 26-29 and 30-37 age groups.

Col. C. W. Goble, state selective service director, notified the local board of the discontinuance of the policy which required the state director's approval for the induction of registrants in the 26 through 29 and 30 through 37 age groups. The order, Goble advised the boards in a state headquarters circular, becomes effective tomorrow.

Emphasizing the temporary nature of the original order which has been in effect since May 22, Col. Goble said Ohio has been the only state in the nation which has operated under a system requiring final approval from state headquarters for the induction of older men.

It was originally placed in effect, he said, to make it mandatory for all local boards to review their rolls for able-bodied 18-25 year olds previously deferred because of essential occupations. By now, Goble said, all boards have completed their reviews and many young men have been inducted into the armed forces.

Another reason for the order originally, Goble said, was to allow all boards to review the cases of older registrants in light of new, more liberal standards for occupational deferments. A large share of men previously classified I-A have since qualified for deferment, he indicated.

"Local boards are directed to immediately review the classification of all registrants remaining in I-A in the age groups 26 through 29 and 30 through 37," Goble advised. "In order to determine whether or not any of these regis-

The Tank that Overflowed
all over America... It's a very ordinary-looking tank. You've probably seen hundreds like it.

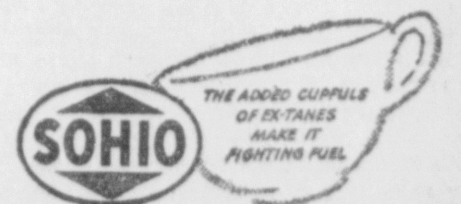

But this one is unique. Because of what's in it. And because it "overflows". It has been overflowing for months now. Overflowing into tank cars that go to refiners all over America — and overseas.

This is one of the reasons why as much as 33% more bombs can now be dropped on our enemies... why our fighter planes can climb a full 20% faster, and go 45% farther.

For this is the "overflow" tank that holds EX-TANES, made by Sohio, and used by refiners coast to coast for energizing vast supplies of aviation gasoline.

These EX-TANES are super-power petroleum molecules... power so concentrated that a few cupfuls added to a gallon of aviation gasoline "soups it up" into the world's highest grade fighting fuel.

Today, Sohio workers have so stepped up production of these desperately needed EX-TANES that they are now being shipped to 10 other refiners in America, and to our Allies... helping to shorten the war, and to give our men of the air a better fighting chance. THE STANDARD OIL CO. (OHIO)

Alice Marvinne Arnold, Francis Smith To Wed

December 25 Set
As Date for
Marriage

SOCIAL CALENDAR

Announcement has been made of the engagement and coming marriage of Miss Alice Marvinne Arnold, daughter of W. E. Arnold, of Ashville, and Francis Boving Smith, son of Mr. and Mrs. Chester Smith, of Carroll. Mr. Arnold, in telling of the engagement, revealed that the wedding would be an event of December 25 at David's Lutheran church, Canal Winchester.

Miss Arnold attended Capital university music school and business college in Columbus and is now associated with the Ohio Midland Light and Power company.

Mr. Smith, a graduate of Capital university, is attending the Theological Seminary at the university. He will be graduated in January, 1945.

Mrs. Downs Honored
Mrs. Gaylord Downs, the former Gladys Crawford, of near Mt. Sterling, was honored at a miscellaneous shower at the home of Mrs. Francis Hinton, of near Circleville. Co-hostesses were Mrs. Leslie Beathard, of Williamsport, and Mrs. Eugene Hinton, of Circleville.

A short program was enjoyed during the afternoon, Miss Louise Thomas playing a piano solo. Miss Wanda Hinton presented a monologue; Miss Velma Thomas, a solo, "Shortnin' Bread"; piano duet, Miss Louise and Miss Wanda Hinton. The many lovely gifts were presented Mrs. Downs by Betty Hinton, Judy and David Hinton, Betty singing a song of congratulation, and the other two bringing the gifts to the bride in small wagons.

Guests included Mrs. Harry Puf-finbarger, Jr., and son Billy, Mrs. Roy Wright, Mrs. Albert Beathard, Mrs. Theodore Riggins and daughter, Shirley, Mrs. Ralph Smith, Mrs. Paul Houser and daughter and Mrs. Herbert Thomas and daughters, Louise and Velma, of near Williamsport; Warden Thomas, Chillicothe; Mrs. Arthur Whitten and sons, Mrs. Gene Steinhauser and son, and Mrs. John Shaeffer, of New Holland; Mrs. Earl Neff and daughters, Bonnie Lee and Jeannie, Mrs. Thelma Huston and daughter, Barbara, Mrs. Carl Dudson and daughter, Mrs. Harry Long, Mrs. Edith Neff, Mrs. Tom Dunn, and daughter, Patsy, Mrs. Ed Neff, Mrs. Eldon Harfield, Mrs. John Huston, Mrs. Thurman See, Mrs. Kenneth Shell and daughters, Carolyn and Marilyn, Mrs. Frank Shell, Mrs. Harold Neff, daughter, Carol, Mrs. Cleveland Crawford, Mrs. William Crawford, Mrs. William Campbell and Mrs. Virgie Alkire, of Mt. Sterling; Mrs. Stanley Taylor and son, Dale, of Orient; Mrs. C. C. Kneisley, of Washington C. H.; Mrs. Kenneth Walters and daughter, Shirley, of Jeffersonville; Mrs. Ben Angles and Mrs. Harry Porter and daughter, Janet, of Grove City; Mrs. Cecil Neff, of Derby; Mrs. Harold Folrod, of Columbus; and Miss Wanda Hinton and Mrs. William Justice, of near Circleville.

Tuxis Club
Youth Fellowship of the First Methodist church will join the Tuxis club of the Presbyterian church in a swimming-skating party at Gold Cliff Park Tuesday at 5 p. m. Each one is asked to take his own picnic supper. The members of these groups will enjoy reduced rates at both the swimming pool and roller-skating rink. Miss Reah Jean Mason, telephone 713, is in charge of transportation.

Combined Celebration
A picnic party at Cross Mound Park, near Tarlton, marked the thirty-second birthday anniversary of Mrs. George Fowler and the seventeenth wedding anniversary of Mr. and Mrs. Roy Hawkes. Present for the occasion were: the Rev. and Mrs. O. L. Ferguson, Mrs. Paul Ferguson and children, Mr. and Mrs. George Fowler and children, Mr. and Mrs. Roy Hawkes and sons, the Rev. and Mrs. Roy Ferguson and daughters, Mr. and Mrs. Roy Arledge, Miss Goldie Noggle, Mr.

dishes, sandwiches and table service. Mrs. Walter Heine will be in charge of the program. In case of rain, the picnic will be held in the Sharpe home.

Gleaners' Class
Gleaners' class of the Pontius United Brethren church will meet Friday at 8:30 p. m. at the home of Mr. and Mrs. Jacob Glitt, East Franklin street. Members are asked to take sales tax stamps to this meeting.

Personals

Mr. and Mrs. William Hallam and children, Dona, Shiela and Pat, of East Main street, went to Van Wert, Monday, for a week's vacation. The Hallam family formerly resided in Van Wert.

Mrs. I. B. Weiler has returned to her home, 220 1/2 Watt street, after spending three weeks in Springfield and South Charleston.

Mr. and Mrs. Ray Hanawalt, of near Five Points, were business visitors in Circleville Saturday.

Mr. and Mrs. John Rhoades and family, of North Court street, and Miss Beverly Kline, Watt street, are spending the week at Buckeye Lake.

Ralph Morris, of Dayton, came Saturday to spend a week's vaca-

tion with Mrs. Morris and their children, who are guests at the home of her father, George G. Adkins, West Union street.

Miss Ruth Montelius, of Cincinnati, is visiting at the home of her parents, Mr. and Mrs. Harry Montelius, of Pickaway township.

Mr. and Mrs. R. P. Summers and daughter, Peggy, of Columbus, spent the week end with Mrs. Summers' parents, Mr. and Mrs. W. B. Cady, of South Scioto street. Mrs. Summers and Peggy will spend some time in the Cady home, before removing from Columbus to Cleveland, where Mr. Summers has been transferred.

Sergeant and Mrs. R. H. Henry, of Montgomery, Ala., are visiting at the home of Mrs. Henry's parents, Mr. and Mrs. W. W. Robinson, of Circleville township, and will remain until the end of the week. Weekend guests in the Robinson home were: Dr. and Mrs. David Mowery and daughter, Lynn, of Dayton.

Mrs. F. E. Heraldson, of Chillicothe, visited last week with friends in Circleville. She was accompanied home by her son, Russell, who had spent two weeks in Circleville.

Mrs. Loren Pace and daughter, Cynthia Lee, of Glendale, Cal., who have been guests of Mrs. Pace's mother, Mrs. Howard B. Moore, South Court street, have gone to Roseville for a visit with

Mr. and Mrs. Willard Pace. When they return to Circleville Wednesday, they will be accompanied by Mrs. Willard Pace, who will visit also in the Moore home.

Miss Alice Stein, of Worthington, is visiting at the home of her cousin, Mrs. Glenn I. Nickerson, South Court street.

Miss Gladys Bowshier, of Osborn, spent the week end with Mrs. Mary Downs, and daughters, of near Orient.

The Rev. and Mrs. Carl Kennedy and son, Jack, were in Cincinnati Sunday where the Rev. Mr. Kennedy performed the wedding ceremony for his cousin, William E. Brown, of that city.

Mrs. Herbert Wolcott, of Clintonville, returned home Sunday after visiting since Wednesday at the home of her brother-in-law and sister, Mr. and Mrs. Leland

Pontius, of North Court street. Mr. Wolcott, who had been in Washington, D. C., on a business trip, spent the week end in the Pontius home.

Mrs. Myrta B. Leist, of Williamsport, was the weekend guest of Mr. and Mrs. C. D. Shook, of North Court street.

Miss Anna Ruth Defenbaugh, of East Main street, is spending a few days with Miss Eleanor Jane Knabel, of West Liberty. Her parents, Mr. and Mrs. Harold Defenbaugh, were Sunday visitors at the Knabel home.

Mr. and Mrs. John Solt, of Amanda, Grover Snyder and Mrs.

Laura Fullen, of Columbus, were Sunday guests of Mr. and Mrs. C. E. Baker, of near East Ringgold.

Mrs. Raymond Tomlinson, of Davenport, Ia., is visiting at the home of Mr. and Mrs. Glen Hines, East Union street.

Mr. and Mrs. Melvin Barr and family, of Walnut township, were Saturday visitors in Circleville.

Mrs. C. L. Thomas and son, Philip, of East Ringgold, were Circleville visitors Saturday.

Mr. and Mrs. George Fischer and family, of Jackson township,

were Saturday visitors in Circleville.

Mr. and Mrs. Homer Bausum of Little Walnut were Saturday business visitors in Circleville.

Legal Notice

LEGAL NOTICE
CHARLES PHALON, who resides at Eldridge, in the State of Pennsylvania, will take notice that on the 17th day of July, 1944, the plaintiff, Pickaway Livestock Cooperative Association, Inc., filed its petition against Charles Phalon, and others, in the Court of Common Pleas of Pickaway County, Ohio, the same being Cause No. 19692 in said Court. This is an action for money lent, on an account, in the amount of \$25,928.41, for which judgment will be taken upon default of the defendants to answer or otherwise plead; and further to determine the interests of the defendants in certain real and personal property located in the State of Ohio, to wit: the corporate assets and property of Springfield Livestock Sales Company, Hillsboro Livestock Sales Company, Hocking Livestock Sales Company, Scioto Livestock Sales Company, and Scioto Livestock Sales Company.

The prayer of the petition is for a money judgment against the defendants in the amount of \$25,928.41, with interest from June 26, 1944, and in the amount of \$30.85, with interest from June 26, 1944, and further for an order of Court requiring the defendants to set forth and identify the interests in the assets and property of Springfield Livestock Sales Company, Hillsboro Livestock Sales Company, Hocking Livestock Sales Company, and Scioto Livestock Sales Company and Chillicothe Clearing Agency. Said defendants are required to answer said petition on the 12th day of August, 1944, or judgment will be taken against them.

ARLINGTON PARK SEASON WILL END ON THURSDAY

CHICAGO, July 31—Arlington park concludes its season, the most successful financially in its history, at the Washington park track next Thursday with an estimated 27 percent increase in attendance and a 50 percent increase in mutuels.

Approximately \$900,000 on an average went through the mutual machines daily.

One important stake race, the \$15,000 added Great Western handicap, remains on the Arlington program. This will be run Wednesday. Sixteen crack sprinters have been entered for the 7-furlong event, among them J. H. Rouse's Three Dots, which set a new track record of 1:10 for six furlongs recently.

Washington park will take over Friday and will run its \$15,000 added Princess Pat stakes for 2-year-olds Saturday.

The last of the Arlington \$50,000 stakes, the Arlington handicap, was staged Saturday, with War Knight, 4-year-old colt owned by Miss Ethel Hill, Hollywood scenario writer, winner by a neck over the 3 to 2 favorite, Allen Drumheller's Georgia Drum. Daily Trouble was third. War Knight paid \$16.20.

The time of 2:02 for the mile and a quarter equalled the track record.

BIRDS EXTEND LOSING STREAK TO 11 GAMES

By International News Service
There were four awfully sad teams in the American Association today and the saddest of them all was Columbus.

The Red Birds saw their current losing streak extended to 11 games as the league-leading Milwaukee Brewers mercilessly took both ends of a Sunday doubleheader to make it five in a row over the once-ambitious Birds. But as bad as things were the Flock had a little consolation in the fact there were other double losers in the association yesterday. Minneapolis, Indianapolis and Kansas City, ranking sixth, seventh and eighth respectively, forced the Birds to share the wailing wall as they too went out to twin defeats.

As the smoke of a heavy weekend cleared, Milwaukee was out in front by 12 full games. Only the most optimistic gave any other club a chance of winning the pennant at this late stage. Louisville was in the runnerup spot, a half game ahead of third-place Toledo and away back in fourth position were the Red Birds, 16 games off the pace. Only a week ago, the Birds were in second place, about seven games behind the Brewers and with high hopes of overtaking the leaders.

Milwaukee made it five straight over Columbus in winning yesterday's double bill, 8 to 1 and 5 to 3. In the first game it really looked like the Birds might shake out of their losing slump. Columbus led 1-0 at the start of the sixth. But Milwaukee burst loose with three runs in the bottom half of the inning, added four more in the seventh and one run in the ninth. Columbus failed to regain its composure long enough to score another run in the last four frames.

Columbus showed only faint hopes of winning the afterpiece as Little Jack Farmer effectively handcuffed them with a scant five hits. Homers by Floyd Young and George Stumpf were the only consolation the Birds gained in the nightcap.

Louisville went back into second place by beating Minneapolis, 14 to 6 and 8 to 0, while third-place Toledo capped both ends of a doubleheader from Kansas City, 11-7 and 6-3. Earl Jones and Bill Seimoth, a couple of southpaws, were credited with victories although Jones had to be relieved in the seventh inning of the opener by Al Lamachia.

In the other games St. Paul defeated Indianapolis twice, 6-2 and 11-7.

JUNIOR NETTERS OPEN PLAY AT KALAMAZOO

KALAMAZOO, Mich., July 31—Players from 23 states and the District of Columbia began today the 29th annual national junior and boys' tennis championships in the five courts of Kalamazoo college.

Outstanding among the 64 juniors was Bob Falkenberg of Hollywood, defending champion who is seeded No. 1 in the tournament. Bob, younger brother of Jinx Falkenberg of the magazine covers and the movies, is on furlough from the Army air service.

His chief rival appeared to be Bernard Bartzan of San Angelo, Tex., national interscholastic champion, seeded No. 2 among the juniors.

YANKEE SPARK

THEY'RE RIDING HIGH ON THE NATION'S TRACKS

Johnny Adams
BATTLE FOR LEADERSHIP in the jockey profession gets closer with Ted Atkinson, the eastern larruper, still topping the field and young Bobby Permane, who was so hot in Florida, a close second. Johnny Adams, the Iowa Kan., veteran who won the riding championship the last two years, also has added to his total at Detroit to move up into third place. Atkinson has been in a slump. (International)

INDIANS AND RED SOX DIVIDE DOUBLE FEATURE

CLEVELAND, July 31—The Cleveland Indians and the Boston Red Sox today had engaged in a couple of the closest regulation-length games on record in the American league this season.

In both games, it was the ninth inning which was the deciding frame.

Two hits, a walk and four Cleveland errors in the last inning of the opener gave Boston a 5 to 3 victory after Cleveland went out in front in the eighth on Manager Lou Boudreau's double and a single by Roy Cullenbine.

Another double in the ninth of the second game scored Paul O'Dea to give the Tribe a 3 to 2 triumph. The nightcap was a pitching duel between Boston's George Woods and the Tribe's veteran Mel Harder. The Cleveland ace allowed five hits while Woods was touched for six. Woods issued 10 bases on balls and struck out two Cleveland batters.

BLUE RIBBON, ECONOMY TEAMS TANGLE TONIGHT

Teams of the City Softball league Monday evening open the next-to-the-last week of circuit play.

Starting the week's program Monday will be Blue Ribbon and Economy Shoes. Tuesday Circle City meets Junior Chamber of Commerce; Wednesday Economy Shoes and Container Corporation play; Thursday, Ralston-Purina and Circle City tangle. Friday one of the postponed games probably will be played off.

Regular season play is scheduled to end next week.

MY, HOW TIMES HAVE CHANGED!

IF IT HADN'T BEEN for his ability to crash the gate at sporting events, "One-Eyed" Connolly would not have become a famous sports figure. The shoe's on the other foot now, for "One-Eyed" Connolly, the famous gate crasher, is guarding the gates now as an usher at Comiskey Park, Chicago. (International)

SAN FRANCISCO GIRL SETS NEW SWIM MARKS

SAN FRANCISCO, July 31—Ann Curtis, 18-year-old San Francisco swimmer, was the unofficial holder of the world's record for the women's 880 yard swim today after shaving almost 8 seconds off the old mark in the Pacific association championships at Fleishhacker pool.

The first American woman swimmer in more than a decade to crack a world record, Ann made the distance in 11:08.6 Sunday and continued on from the half mile marker to slash the American record for 1,000 yards by almost a full minute.

The former best time for the women's half mile is 11:16.1, a mark set by the Danish star, R. Hyeger, in 1937.

The San Francisco girl's time for 1,000 yards was 12:42 which is six seconds short of the world record for the distance but better than Helene Madison's 13:23.8 mark which has been the American standard since 1931.

Following her free style win, Ann won the 100 yard backstroke in 1:11.7, less than two seconds off the American record.

REDS, GIANTS SPLIT; WALTERS IS POUNDED

NEW YORK, July 31—Arnold Carter, big southpaw up from Syracuse of the International League, was Manager Bill McKechnie's choice to pitch for the Cincinnati Reds in their final game of a four-game series with the New York Giants.

Manager Mel Ott named Bill Voiselle to hurl for the Giants. In a Sunday doubleheader the two clubs broke even, the Giants winning the first game, 8-0, and the Reds the second, 9-3. Bucky Walters, unable to regain his early-season form, was touched for the loss. He allowed 10 hits, while Cincinnati collected only five off Ruhe Fischer. It was Walters' fourth try for his 16th win of the season.

BROWNIES GAIN WITH TWIN WIN OVER SENATORS

Dodgers Stop Cards In One Game Of Doubleheader; Bucs Lose Twice

NEW YORK, July 31—It is axiomatic among sports promoters, particularly in boxing, that the big gates are drawn, not so much by the champions as by the good contenders. The New York Yankees, playing the part of contender for the first time in several years, drifted into a good baseball city and justified the promoters' faith in the lure of the challenger by hooking up with the Detroit Tigers and producing a gate of 49,994, largest of the season.

The scene was Briggs stadium in Detroit, where the Yanks split with the Tigers in taking the first game, 10 to 2, and losing the second to the Bengals, 13 to 7. Hank Borowy won his 13th of the year in the opener while his teammates pounded three Tiger hurriers for 15 safeties. Hal Newhouser was credited with the nightcap triumph although he allowed 16 hits. Dick Wakefield led the attack with a homer, a triple and a single.

The Chicago White Sox and Philadelphia Athletics, who aren't doing so well, drew a crowd of 12,000 which saw them divide a twin bill, the White Sox winning the first game, 6 to 4, on Bill Dietrich's seven-hitter and the A's taking the closing game, 3 to 0, as Jesse Flores countered with another seven-hit job. The White Sox won the opener with a four-run rally in the third. Johnny Humphries was charged with the nightcap loss.

The Boston Red Sox, who are currently challenging the league-leading St. Louis Browns, split a twin bill with the Cleveland Indians before 33,000, the Red Sox grabbing the initial contest, 5 to 3, then losing the closing game, 3 to 2, in a pitchers' battle. Four errors in the ninth inning of the opener gave Yank Terry the triumph. George Woods gave up only six hits for Chicago in losing the nightcap while Mel Harder, in registering the win, allowed five.

The leading St. Louis Browns drew only 12,500 in taking two games from the Washington Senators, 2 to 1 in 10 innings and 7 to 3. A double by Don Gutierrez in the 11th of the opener won for Bob Muncie. In the nightcap, Denny Galehouse went the route for the first time this year, scattering 11 hits.

In the National League, the New York Giants and Cincinnati Reds split a double bill before 23,813, the Giants winning the opener, 8 to 0, and losing the second game, 9 to 3. Bucky Walters failed in the opener for the fifth straight time this year. Frank McCormick banged out two homers in the nightcap to give Harry Gumbert the win.

The St. Louis Cards and Brooklyn Dodgers attracted 18,968, who saw the Dodgers snap out of a five-game losing streak to beat the Cards, 10 to 4, then revert to their old form with an 11-inning loss to the Cards, 9 to 7. Tommy Warren won the first game on eight hits then was charged with the closing loss when the Cards pushed over two markers in the eleventh.

The Chicago Cubs and Philadelphia Phillies played before 8,600 as the Cubs ran their winning streak to six straight by winning both games, 4 to 2 and 11 to 2. Hank Wyse was credited with the opening win when the Cubs ran two markers across in the fourth inning. Four Philly pitchers were pounded for 13 hits in the afterpiece as Bill Fleming registered the triumph.

The smallest crowd of the day, 6,500, saw the Boston Braves whip the Pittsburgh Pirates twice, 6 to 4 and 2 to 0. Three-run rallies in both the seventh and eighth innings won for Stan Klopp in the first game. Veteran Al Javery won his first contest since June 17 in the nightcap, holding the Pirates to only two hits. Nick Strincevich absorbed the loss when he was knocked out of the box in the second inning.

Blondie, with Arthur Lake as Dagwood and Hanley Stafford as Dithers.

MURDERER DELIVERS VICTIMS
A murderer who conveniently delivers his victims to a graveyard makes his appearance in "The Case of the Curious Undertakers," the crime story confronting "Mr. District Attorney" in his broadcast on Wednesday. The "D. A.'s" investigation of the killings takes him into eerie places, before he arrives at a solution.

RICHARD PUSHES HOE
Richard Parker runs into a pair of exclusive (and simultaneous) dates, and ends up piloting a hoe, in the merry, mixed-up tale of "Richard and the Farmer's Daughter," on "The Parker Family" on Friday. When his girl friend, Louise, returns from her vacation and hears tales that he has been dating several other girls in her absence, Richard tries to make amends by promising to see her every night for a week. Then, he discovers that his parents have arranged for him to spend the same week working on a farm. He balks... until he sees the farmer's daughter.

Lily Pons and Andre Kostelanetz, now touring the Persian Gulf war theatre have extended their trip for an extra four weeks so that they may visit the Italian-North African theatre. Eleanor Steber, Metropolitan Opera singer, with Percy Faith's orchestra, are holding down the Kostelanetz Sunday time for the Summer.

When Shirley Booth and Joseph Cotten guest-starred on "Stage Door Canteen" Cotten confided that a pair of eyes once caused him his greatest tragedy. "Were they brown eyes or blue eyes?" asked the trusting Miss Booth. "Snake eyes," retorted Cotten.

Reed Kennedy, the "Family Hour" baritone star, is busy even in his spare time! The popular singer carries several pocket-size foreign dictionaries with him to study at odd moments. He's preparing his operatic repertoire for Fall concerts, and in the process he's becoming expert at French and Italian.

Nita Rosa, vocalist featured with Xavier Cugat on "Your Dubonnet Date," returns to the Major Bowes amateur program, where she got her first break in show business, in the broadcast on Thursday.

Latest radio writer to reach the Broadway stage is Arthur Miller, "The Doctor Fights" scripter. His play, "The Man Who Had All the Luck," is scheduled for Fall production, under sponsorship of Herbert Harris.

Roy Acuff and the Smoky Mountain Boys, with Velma and Rachel,

spend the entire week between Saturday broadcasts of the "Grand Ole Opry," traveling to make personal appearances throughout the South. When the war is over and conditions return to normal, they hope to visit their friends in every state in the union, probably traveling by plane.

Pine (pinus species) has long been used in liniments, soap and stimulating ointments. It usually is imported from Norway or the black forest—or was before the war.

Harper Thatcher Team Signed To Meet Kahns August 10

BENEFIT GAME TO RAISE FUND FOR CITY PARK

Girl Aggregations Among Outstanding Athletes Of Entire State

Thursday, Aug. 10, at 7 p. m., two of the leading girls softball teams of Columbus will play at Ted Lewis park, members of the board of park commissioners announced Monday.

Harper Thatcher girls team has been signed to meet Kahn Jewellers, they announced. The Harper Thatcher team has won two of three games from Kahn's so far this season.

The two clubs tied for first place in the girls softball league in Columbus and a keen rivalry exists between the two clubs. The Kahn team made a big hit in an appearance here earlier this season.

The Harper Thatcher team boasts some of the best girl players in the state and has made several exhibition appearances, including a game at Chillicothe.

Sale of tickets for the exhibition game will start Wednesday. Price has been set at \$1 and each ticket is for the entire family of the purchaser.

Proceeds of the game will go towards the fund to erect a shelter house at the park. A list of purchasers of tickets will be kept and forwarded to Ted Lewis who has donated \$1,000 towards the shelter house. A \$25 war bond will be awarded at the game.

Interest in softball has been growing and an average of 400 persons have been attending the City league games. A junior softball league also is being organized.

The shelter house planned will provide a place for picnics and meetings of various groups. The park board hopes to include in it a kitchen, tables, band shell, picnic furnaces and other items which will make it one of the biggest improvements in the park.

RATIONING AT A GLANCE

Processed Foods

Blue stamps A6 through Z8 and A5 in Book 4.

Blue stamps B5-C5-D5 and F5 valid August 1.

Blue stamps good for ten points each indefinitely.

(Five Blue stamps good the first of each month.)

Meats, Cheese, Butter, Fats, Canned Milk, Canned Fish:

Red stamps A8 through Z8 in Book 4.

Red stamps A5-B5-C5 in Book 4 valid July 30.

Red stamps good for ten points each indefinitely.

(Three Red stamps valid every fourth Sunday.)

Sugar

Sugar stamps 30, 31 and 32 in Book 4 each good for 5 pounds indefinitely. Sugar stamp 40 in Book 4 good for 5 pounds.

(Additional rationing sugar not exceeding 20 pounds per person may be obtained now upon application to local board with surrender of SPARE stamp No. 37.)

Shoes

No. 1 and No. 2 Airplane stamps in Book 3 good for 1 pair until further notice. Take Book 3 when shopping for shoes.

Gasoline

Stamps A-12 good for 3 gallons through September 21. B-3, C-3, B-4 and C-4 stamps good for 5 gallons until used. Make application for B or C renewal at least 10 days before rations are exhausted.

State and license number MUST be written on face of each coupon IMMEDIATELY upon receipt of book.

Tires

Inspections not compulsory unless applying for new tires. DO NOT THROW AWAY YOUR TIRE INSPECTION RECORD—required for supplemental gasoline rations and new tires.

Commercial tire inspections due every 6 months, or 5,000 miles, whichever is first.

Fuel Oil

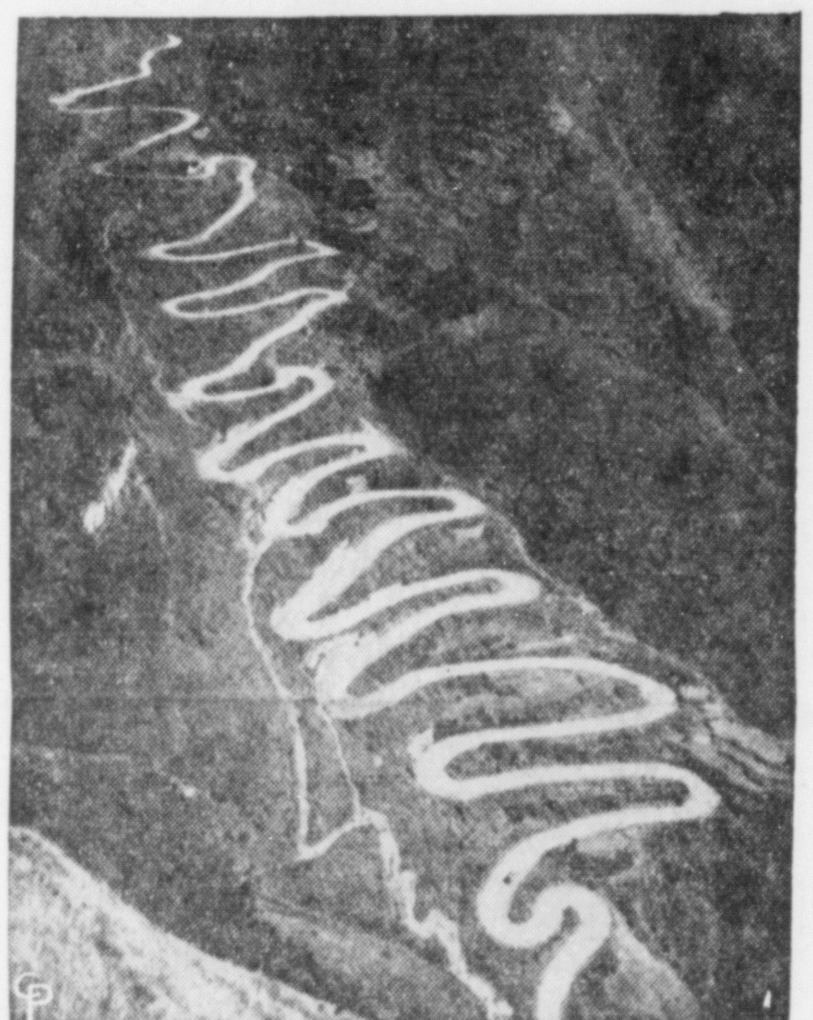

Periods 4 and 5 coupons good now. All coupons good for 10 gallons per unit. All change-making

Newest War Poster

ONE of the most striking war posters to make its appearance in Circleville is this drawing made by a New York artist. It has caused more comment than almost any other war poster. It is one of the few unsolicited war posters ever accepted by the government. It is the suggestion of Wesley Heyman, assistant art director of House Beautiful magazine.

NEWSBOY THINKS SEVEN BURNED ROMMEL DEATH IN BLAST OF WORTH NICKEL OLD GAS LINE

CHICAGO, July 31—A leather-lunged newsboy added this today to the examples of salesmanship. At the top of his voice, he shouted:

"Germans caught in death trap! Rommel reported killed in action!"

Then, feeling his listeners were not sufficiently impressed, he added:

"What do you want for a nickel?"

DIES AT MT. STERLING

Mrs. Flora E. Schaefer, 83, died Saturday at her home in Mt. Sterling. A. Clyde Alkire, a son, is the only survivor. Funeral services will be held Tuesday at 10:30 a. m. in the Snyder funeral home, Mt. Sterling, with burial in Mt. Sterling cemetery.

coupons and reserve coupons good through heating year, September 30. Period 1 (1944-45) good July 1 to December 18—10 gallons per unit. Return application for next season's rations as soon as received.

mans—who even whispered to their American friends that "Viereck is part-Jewish, yet Goebbels gives him a job, and after the last war that—Viereck spread dirty, rotten lies against the Kaiser and his family. What can we expect of him now?"

Strategy of the old-line diplomats was to win over American industrialists and big bankers through favorable trade agreements, cartels and patent exchanges; and to establish friendly contacts with certain of the State Department's fascist-minded career men.

The Nazis, on the other hand, hoped to scare America from entering the war by the same tactics they used so successfully in Europe and by sabotage through the German-American Bund. Result: they spent more time sabotaging each other's schemes than they did the U. S. A.

One important German diplomat remarked to an American friend just three days before Pearl Harbor: "Germany must knock out England quickly before America gets going, or we are through. Regardless of who wins, a long war means the end of the world as we have known it. Peace must come within two years between Britain and Germany, regardless of who gets credit for victory."

FDR VICTORIES IN PRIMARIES

White House political advisers have been congratulating themselves on the success of the policy of passive resistance. When it comes to purging Senators, they think maybe Mahatma Gandhi has something.

Six years ago, with a big blare of trumpets, Roosevelt set forth to purge his political enemies. He failed. This year, some of the same Senators are up for re-election, plus other Congressional enemies, and although FDR hasn't lifted a little finger, many of them are falling by the wayside in the primaries. Meanwhile, some of his best supporters have been renominated.

As a result, the political soothsayers are predicting that Roosevelt, if re-elected, will have a much more favorable Congress than today. Here is the score so far:

Senator "Cotton Ed" Smith of South Carolina, more bitter against the President than most Republicans, defeated by New Deal Governor Olin Johnston.

Senator Rufus Holman of Oregon, rabid isolationist and reactionary Republican, defeated by liberal Republican Wayne Morse, former member of the War Labor Board.

Senator Worth Clark of Idaho, isolationist, defeated by cowboy Glenn Taylor.

Senator Claude Pepper of Florida, crusading Roosevelt supporter, renominated; also Senator Lister Hill of Alabama, Democratic whip.

Senator Elmer Thomas of Oklahoma, renominated despite vigorous opposition from anti-Roosevelt Representative Wesley Disney.

Last time, FDR went to Oklahoma to make a speech for Thomas. This time, he made no move.

Representative Dies of Texas, anti-Roosevelt, decided not to seek renomination; Representative Kleberg of Texas, also anti-Roosevelt, was defeated, and Representative Patton of Texas faces a run-off. Also, Representatives Costello of California and Starnes of Alabama were defeated.

The recent Arkansas primary, resulting in Representative Fulbright's victory over Mrs. Caraway, was neither a Roosevelt victory nor defeat, since both are his supporters. Fulbright, however, is an aggressive fighter for a broad-gauged peace and will be a real asset to Roosevelt when it comes to battling against the isolationists.

COMING SENATE RACES

Next race which Washington is watching is the Missouri primary this week. There, America First leader Senator Bennett Clark, long a bitter Roosevelt foe, suddenly has hopped on FDR's coat-tails in

POSING for their nursery portrait, the Diligent quintuplets of Buenos Aires, Argentina, are shown at play. The children are, left to right, Maria Christina, Carlos Alberto, Franquito (on horse), Maria Fernanda and Maria Esther.

JAMES A. BOYER DIES AT HOME IN TARLTON

James A. Boyer, 81, died at 1:45 p. m. Saturday at his home in Tarlton, where he had been a barber for many years.

Mr. Boyer was born in Fairfield county and was the son of Charles and Barbara Campbell Boyer. He is survived by the widow, the former Martha E. Stumpf; three daughters, Mrs. D. H. Edington, Detroit, Mich.; Mrs. David Dunkle, Cuyahoga Falls, and Mrs. Wayne Dresbach, Circleville; four grandchildren; two brothers, George, of Oakland, and Frank, of Lancaster; two sisters, Mrs. Eva Hedges and Mrs. Kate Anderson, Tarlton.

Funeral services will be Tuesday at 3 p. m. at the residence in Tarlton with the Rev. S. N. Root, of Derby, officiating. Burial, in charge of the Deffenbaugh funeral home, will be in the Tarlton cemetery.

Friends may call at the Boyer home Monday evening.

a desperate hope of winning renomination. He is opposed by forthright racket-busting Roy McKittrick.

Other Senate races which the White House is hoping may turn out to be Roosevelt victories are the following:

Senator Guy Gillette of Iowa, Democrat, who was opposed by the President in the 1938 purge, will now get 100 percent White House support for re-election.

E. A. Stevens, hard-working New Orleans business man, a relative newcomer to politics, is running against anti-Roosevelt Senator Overton of Louisiana.

Brien McMahon of Connecticut, Democrat, former U. S. Assistant Attorney General, who the Administration is hoping will run against GOP Senator Danaher of Connecticut.

Governor John Moses of North Dakota, Democrat, who will get the support of Republican candidate Lynn Stambaugh in order to defeat isolationist Senator Nye.

NOTE—Senator Tydings of Maryland, whom the President fought hardest in 1938, has now boasted of his alleged friendship for FDR. At the Chicago convention in 1940, Tydings led a drive against Roosevelt. But at Chicago in 1944, Tydings, as head of the Maryland delegation, voted for Roosevelt.

W. H. CLINE, 68, WIDELY KNOWN FARMER, DIES

William Harley Cline, 68, died Sunday at 2:10 p. m. at his home in Circleville township of complications following a six-month illness. Mr. Cline was a widely known farmer and was a member of Trinity Lutheran church and of Nebraska grange.

Mr. Cline was born November 7, 1876, in Harrison township, and was the son of Ishmael B. and Melissa Jane Groom Cline. He married Nancy Alice Barnhart, of Ashville, on January 2, 1898, who survives, together with nine children: Mrs. Florence May Shirley, Theodore Howard Cline, Ashville; Ishmael Abraham Cline, William Kenneth Cline, Mabel Lucille Cline, of the home; Stanley Edwin Cline and Leonard Grover Cline, Orient; Samuel Ralph Cline and Robert Francis Cline, Circleville; one sister, Mrs. Daisy F. Conrad, of Columbus; a cousin, Mrs. Jennie Groom Rose, who shared the Cline home from the age of 14 months until her marriage, and 13 grandchildren.

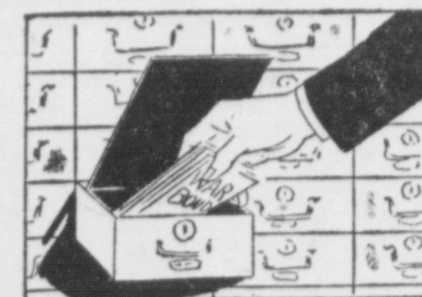

Funeral services will be conducted Tuesday at 3 p. m. in Trinity Lutheran church by the Rev. G. L. Troutman. Burial in charge of the Mader funeral home will be in Reber Hill cemetery.

Friends may call at the home.

The Black sea was called by the ancients "The Inhospitable Sea" because of its roughness and the wildness of the savage tribes that lived on its borders.

TENTH MAN HELD IN INQUIRY AT PAPER PLANT

Another man Monday was awaiting grand jury action in connection with the alleged embezzlement of money at the Container Corporation of America plant here.

Forrest W. Storts, 118 South Washington street, a straw dealer, was bound over under \$1,000 bond when he was arraigned before Mayor Ben H. Gordon on embezzlement and obtaining money under false pretense charges. Police Chief W. H. McCrady and Sheriff Charles Radcliff said Storts admitted the charges.

Storts was the 10th man held on similar charges. Nine men were arraigned in Mayor Gordon's court last week. They were released on bonds ranging from \$500 to \$1,000.
